

### **MCTC Image: House Of Competition**

Tennis without competition is boring. That's why the game requires scoring, even if love means nothing to us.

When you host or coordinate 23 tournaments a year, you're a House Of Competition. When 15 USPTA-certified professional instructors teach Play To Win, tennis, you're a House of Competition. When you're operating one of the largest tennis leagues in the state, year-'round, involving 400 players, you're a House Of Competition.

We teach our members that fun, fitness and a healthy lifestyle feel great if you're the one telling someone, "Nice match, you played well, I was fortunate to win."
