

### **MCTC Branding: Real Tennis Lives Here**

Our members are a lively bunch when it comes to competitive tennis. Travel team and league play are intense, serious, and physically tough.

Members care about their game. It's an investment in lifestyle. It's also an expression of personality that empowers them.

We encourage a setting and competitive slate of programs for real tennis with the emphasis on learning how to win. Elevating members' game to the next level is a top priority.

You can play for fun or you can play for afterglow. You can play for health and fitness, or you can play for competition-lite.

But we recommend you play winning tennis where real tennis lives.

And that would be right here.
